About MPC
MPC is a leading, integrated, downstream energy company headquartered in Findlay, Ohio. The company operates the nation’s largest refining system with more than 3 million barrels per day of crude oil capacity across 16 refineries. MPC’s marketing system includes branded locations across the United States, including Marathon brand retail outlets. Speedway LLC, an MPC subsidiary, owns and operates retail convenience stores across the United States. MPC also owns the general partner and majority limited partner interest in MPLX LP, a midstream company which owns and operates gathering, processing, and fractionation assets, as well as crude oil and light product transportation and logistics infrastructure. More information is available at www.marathonpetroleum.com.
At Marathon Petroleum Corporation (MPC), community investment is an integral part of our business. We collaborate with our stakeholders to positively impact the communities where we operate through strategic investments that create measurable, lasting and sustaining value.

The Marathon Petroleum Foundation, Inc. strategically focuses its community investments on three core areas where it can make a positive, measurable impact: science, technology, engineering and math (STEM) education, environmental conservation/sustainability and public safety. MPC also provides limited support to community-based organizations to address local health, human and social service needs.

**STEM Education**
MPC’s success relies on our ability to recruit and retain employees with exceptional STEM-related skills. Our goal is to invest in STEM-related initiatives that better prepare middle school, high school and career/technical education students for professional and academic success by increasing access to high-quality educational resources and instruction.

**Environmental Conservation and Sustainability**
MPC supports government agencies; environmental and community groups; and trade, professional and industry associations devoted to efforts that protect, conserve and sustain our environmental resources. These efforts may include recycling initiatives, clean-ups, educational programs, the construction of nature trails and research projects.

**Public Safety**
We are committed to operating our operations in a manner that promotes the health and safety of our employees and customers, and are focused on making our communities stronger, safer places to live, work and play.

We provide funding, equipment and support to first responders, government agencies and community-based organizations to increase the overall safety of the communities where we operate.
