

# Mandan Refinery

## Overview

Marathon Petroleum Corp.'s (MPC) Mandan refinery began operations in 1954 and today has a crude oil refining capacity of 71,000 barrels per calendar day (bpcd). The refinery processes primarily sweet domestic crude oil from North Dakota and manufactures gasoline, distillates, propane and heavy fuel oil. Refined products are shipped via truck and rail.

## Health, Safety & Environment

- > Steward of natural habitats including the dedicated 640 acres surrounding the refinery
- > Partnered with the Bismarck and Mandan Parks and Recreation Departments to plant more than 11,000 trees for the State's Annual Arbor Day over the past 25 years
- > Site recognized for excellence in safety performance by Occupational Safety and Health Administration in 2014
- > In 2015, the refinery logged 3.8 million hours without a Days Away From Work (DAFW) injury

## Community

- > Donated \$800,000 in charitable giving to non-profit organizations in the Northern Great Plains in 2016
- > Awarded a three-year, \$750,000 grant to Bismarck State College to develop a virtual process technology training program
- > Completed a three-year, \$750,000 grant to the North Dakota Safety Council to develop a state-of-the-art training center
- > Supports Junior Achievement of the Upper Midwest to reinforce science, technology, engineering and math (STEM) education to 3,500 students

## Quick Facts

EMPLOYMENT: Approximately 290 employees

REFINING CAPACITY: 71,000 bpcd
