

# Anacortes Refinery

## Overview

Marathon Petroleum Corp.'s (MPC) Anacortes refinery is located about 70 miles north of Seattle on Puget Sound and has a total crude oil capacity of 119,000 barrels per calendar day (bpcd).

The refinery processes Canadian crude, domestic crude from North Dakota and Alaska North Slope and international crudes to manufacture gasoline, distillates, heavy fuel oil and propane. The refinery distributes products through pipeline connected terminals and MPC's marine terminal via ships and barges.

## Health, Safety & Environment

- > Created an employee-based team (EAGLES) to coordinate refinery and community environmental projects
- > Leading indicators are used to drive continuous improvement in environment, health and safety performance
- > Emphasis on process safety, including employee-led programs
- > 2016 American Fuel and Petrochemical Manufacturers (AFPM) Elite Gold Safety Award Winner
- > 2015 AFPM Elite Silver Safety Award Winner
- > Safety performance in top quartile of industry

## Community

- > Invest in local environmental shoreline enhancement projects
- > Provided investment to establish the Boys and Girls Club of Skagit science, technology, engineering and math (STEM) Academy
- > Investments in American Red Cross to purchase, equip and deploy new regional emergency response vehicles
- > Sponsor Skagit County middle school students to attend Mountain School in North Cascades National Park
- > Invest in regional college Voc Tec programs
- > Invest in local area senior centers to improve programs and facilities
- > Invest in communications and equipment upgrades for regional first responders
- > Host the annual March Point Run benefiting the United Way of Skagit County

## Quick Facts

EMPLOYMENT: Approximately 390 employees

REFINING CAPACITY: 119,000 bpcd
