Canton Refinery

Health, Safety & Environment

The health and safety of our employees and contractors is of paramount concern. We take steps to ensure an accident-free, incident-free workplace. Due to this commitment, we've implemented safety measures and been recognized as a leader in safety.

At the same time, we are committed to minimizing our impact on the environment. As such, we participate in multiple programs, support several organizations and implement various initiatives that aim to protect our environment and the local communities in which we operate. Below is a list of recent accolades and accomplishments that we've earned at our Canton refinery.

- 2025 ENERGY STAR® certification – U.S. Environmental Protection Agency, 20th consecutive year; every year since refineries became eligible: Signifies energy efficiency performance in the top 25% of similar facilities nationwide.
- 2023 Distinguished Safety Award – American Fuel & Petrochemical Manufacturers: The association's highest safety honor, which goes to facilities that demonstrate exemplary safety performance, program innovation and safety leadership.
- 2021 Voluntary Protection Program Star Certification – U.S. Occupational, Safety and Health Administration: Demonstrates exemplary achievement in the prevention and control of occupational safety and health hazards.

Overview

At Marathon Petroleum Corporation (MPC), we're working to accelerate life's possibilities. Every day we live our core values of Safety & Environmental Stewardship, Integrity, Inclusion, Collaboration and Excellence. By reliably providing affordable, safe and abundant energy from coast-to-coast, we look to power today. We're inspired to make tomorrow even better, and we're just getting started.

Our Canton refinery is located 60 miles southeast of Cleveland, Ohio, and has a crude oil refining capacity of 100,000 barrels per calendar day (bpcd). In December 2014, the company completed construction of a condensate splitter, which increased the refinery's capacity to process condensate from the Utica shale region. The Canton refinery processes sweet and sour crude oils into gasoline, distillates, asphalt, propane, natural gas liquids and petrochemicals, and heavy fuel oil. Product distribution occurs through pipeline, transport truck and rail.

Community

We know that community is important. It's why we do what we do every day. Aside from fueling the Canton area, we also make it a priority to be actively involved in efforts that have a positive impact on the community. Listed below are some of the ways we do just that.

Notable grants in 2024:

- Stark Education Partnership: $25,000 to support its mission of strengthening education-to-career pathways through closer connections between schools and workforce leaders.
- Feed Kids First: $18,000 to support and expand its food pantry and distribution program that provides meals to children and families in the Canton City School District.
- Mohawk Valley Joint Fire District: $15,000 to install a permanent hydrant at its firehouse in Sandy Township to ensure immediate water access for fire suppression.
