Catlettsburg Refinery

Health, Safety & Environment

The health and safety of our employees and contractors is of paramount concern. We take steps to ensure an accident-free, incident-free workplace. Due to this commitment, we've implemented safety measures and been recognized as a leader in safety.

At the same time, we are committed to minimizing our impact on the environment. As such, we participate in multiple programs, support several organizations and implement various initiatives that aim to protect our environment and the local communities in which we operate. Below is a list of recent accolades and accomplishments that we've earned at our Catlettsburg refinery.

- 2024 Elite Silver Safety Award – American Fuel & Petrochemical Manufacturers: Recognizes safety performance in the top 10% of the industry.
- 2024 Kentucky Governor's Safety & Health Award – Kentucky Education and Labor Cabinet: Honored the site for more than 1.4 million hours worked without a lost-time injury or illness during the 2024 calendar year.
- 2024 Voluntary Protection Partnership of Kentucky Star Certification – Kentucky Division of Education and Training, sixth consecutive year: Signifies exemplary safety and health performance in the workplace.

Overview

At Marathon Petroleum Corporation (MPC), we're working to accelerate life's possibilities. Every day we live our core values of Safety & Environmental Stewardship, Integrity, Inclusion, Collaboration and Excellence. By reliably providing affordable, safe and abundant energy from coast-to-coast, we look to power today. We're inspired to make tomorrow even better, and we're just getting started.

Our Catlettsburg refinery is in northeastern Kentucky on the western bank of the Big Sandy River, near the confluence with the Ohio River and has a total crude oil refining capacity of 307,000 barrels per calendar day (bpcd). The Catlettsburg refinery processes sweet and sour crude oils into gasoline, distillates, asphalt, natural gas liquids and petrochemicals, propane and heavy fuel oil. MPC completed construction of a condensate splitter in 2015, increasing the refinery's capacity to process condensate from the Utica shale region. Pipelines, barges, transport trucks and rail are used to distribute products.

Community

We know that community is important. It's why we do what we do every day. Aside from fueling the Catlettsburg area, we also make it a priority to be actively involved in efforts that have a positive impact on the community. Listed below are some of the ways we do just that.

Notable grants in 2024:

- United Way of Northeast Kentucky, 211 Service: $65,000 to support a 24/7 confidential helpline, connecting 20,000 residents in five counties to essential services.
- Friends of Greenbo State Park: $25,000 to assist with park maintenance, including upkeep for park grounds, tennis courts and walking, bike and equestrian trails.
- Daffodil Spring-tacular Festival: $5,000 to support Ashland's second annual spring celebration with 20,000 daffodil plantings and children's gardening education.

Quick Facts

EMPLOYMENT: Approximately 750 employees

REFINING CAPACITY: 307,000 bpcd
